

### **Project PPDB (Political Party Database)**

Période: 2011-undetermined

**Researchers:** Émilie van Haute (Country Expert)

**External partners:** 25 country experts

#### **Principal Investigators :**

Susan Scarrow (University of Houston)

Paul Webb (University of Sussex)

Thomas Poguntke (University of Dusseldorf)

#### **Abstract**

The Political Party Database Project is a cross-national collaborative initiative that is currently working to establish an online, public, database as a central source for key information about political party organization, party resources, leadership selection, and political participation within political parties in many representative democracies.
